II. Background Information

About MIDA FINNSOM South Central Somalia Project
IOM Migration for Development in Africa (MIDA) programmes focus on strengthening the institutional capacities of African States through a structured framework of mobilization of resources involving countries of destination, countries of origin and diasporas. In Somalia, through its MIDA programme, IOM has been helping the Somali Government since 2008 to strengthen the capacity of Somali institutions so that they can be more effective in responding to the needs of Somali people. The MIDA FINNSOM South Central Somalia project is funded by the Government of Finland. Similarly to the MIDA FINNSOM Health projects implemented in Somaliland and Puntland by IOM Helsinki with support from the Finnish Government, this project aims to facilitate the transfer of skills, competencies and knowledge of qualified Somali expatriates to public institutions in South Central Somalia, with focus on two sectors: health and education. The beneficiary institution will host the qualified Somali expatriate, and will be responsible to provide a safe and secure work environment. The IOM Mogadishu MIDA staff will monitor the expatriates while on assignment.

About the geographical coverage of the project
Initially, the project will support positions in Mogadishu, and subject to security, the project aims at extending its support to other regions in South Central Somalia.

About Yardimeli Children’s and Maternity Hospital
Yardimeli Children’s and Maternity Hospital is a strictly not-for-profit organization. The hospital provides high quality reproductive services to women, and high quality medical services to children under the age of 14 years in Mogadishu and surrounding areas with approximately 3 million patients. The hospital functions as a referral hospital for the whole country, and a Centre of Excellence in Somalia to all actors in the field of health, especially to the Ministry of Health.

The hospital is involved in education and training of health professionals in gynaecology & obstetrics, paediatrics and hospital management. It provides expert support to primary level maternal and child health care all over the country. The medical specialty services of the hospital gynaecology & obstetrics and paediatrics. The hospital includes an emergency department, outpatient department and inpatient department. It has two surgical theatres and an intensive care unit for maternal and neonatal care and laboratory. In addition the hospital has imaging, Nutrition, breast-feeding and antenatal unit.

In light of having new, high quality, equipped hospital within the MoHHS, the Yardimeli Children’s and Maternity Hospital
Hospital aims to reduce the mortality of pregnancy women and children less than five years. For this reason, Yardimeli Children’s and Maternity Hospital must initiate and assess its current operating departments and determine the key issues that constrain effective performance and delivery of results. The Yardimeli Children’s and Maternity Hospital requires the services of Medical Doctor specialist in paediatrics and children health to assist the Yardimeli Children’s and Maternity Hospital and its management to provide support and guidance. The incumbent will develop concrete plans and strategies to ensure quality of care and the quality of paediatrics’ department care in the hospital. The incumbent will monitor closely the morbidity and mortality trends together with all other health indicators and report any deviation in the trends to chief of physician to ensure that prompt actions are taken. The incumbent will also be required to balance direct support with the transfer of skills and knowledge to the Yardimeli Children’s and Maternity Hospital staff. Capacity development is a key component of this assignment and it will be taken in high consideration in evaluating the achievement of assignment

III. Duties & Responsibilities

Under the overall guidance of the designated supervisor, the General practitioner needs to be able:

1. To perform his/her professional duties under the supervision of Chief of Physician of the Hospital.
2. Carry out pediatric basic ENT treatment, outpatient and inpatient activities in YCMH
