IOM International Organization for Migration

CALL FOR PROPOSALS

1. Introduction

To address multifaceted urgent humanitarian and capacity needs in Somalia and contribute to increasing stability, particularly among the most vulnerable Migrant and Mobile Populations, the International Organization for Migration (IOM) proposes a comprehensive set of interventions covering: (life-saving basic service provision through health, water, sanitation and hygiene (WASH)).

This call for proposal has been developed in line with the context of Japan Supplementary Budget (JSB) funded project, one of the main components of the project is the provision of **“Safe Water Supply, Improved Sanitation and Hygiene Practices”**..

As in previous years, IOM intends to continue the support water provision and good hygiene practices the most vulnerable communities in **Beledweyne, Dollow Luuq, Jowhar, Mogadishu (Daynille and Hamar Jajab) and Afgooye**. IOM has been implementing WASH projects in all the aforementioned areas, the call of proposal is hence a continuation of operational and maintenance of the existing water systems.

2. The scope of work and process

- Projects are to be implemented by a local vendor or organisation based in in Beledweyne, Dollow, Luuq, Jowhar, Mogadishu (Daynille and Hamar Jajab) and Afgooye that have background and expertise on Water, Sanitation and Hygiene promotion (WASH) service delivery using the three tank water supply systems and polyglu¹. The partners should have both a strong technical capacity and good knowledge of local WASH needs, and the financial capacity to pre-finance activities before signature of MOU.
- Potential service providers will need to submit **‘budget Proposals’ with detailed Work plan** responding to certain criteria detailed below.
- IOM will evaluate the budget proposals against set of criteria’s including number of years of experience with similar work, local expertise and knowledge, collaboration with UN/IOM and other partners, risk assessment, cost effectiveness and select the most compliant and feasible ones. Only the selected proposals will receive funding. **IOM will define the level of funding based on the identified needs and the quality of the suggested solutions.**

¹ Polyglu is a flocculant agent that is used in water treatment systems.

IOM International Organization for Migration

- On the basis of these proposals, a **'Contract Agreement'** will be signed between IOM and the identified service providers, defining the final budget and the modalities for implementation, reporting, monitoring and evaluation.
- Contract Agreements, relevant procedures and project activities will be administered, implemented and managed according to the **applicable rules and regulations** for IOM procurement of goods and services.

International Organization for Migration, Preparedness and Response Division (PRD) invites qualified local vendors or organisations to carry out the following WASH activities in the aforementioned areas. Kindly note separate budgets and proposals will be required for each locations. Failure to separate budgets will lead to a **direct disqualification** of partners.
